Clinical Trial Update Carfilzomib for Relapsed Multiple Myeloma

Phase 3 Study Comparing Carfilzomib, Lenalidomide, and Low-dose Dexamethasone Versus Lenalidomide and Dexamethasone in Subjects With Relapsed Multiple Myeloma who have received 1-3 prior therapies.

The following centres are presently activated and recruiting eligible patients:

Calgary, Alberta
Tom Baker Cancer Centre (Dr. Nizar Bahlis)

Montreal, Quebec
Royal Victoria Hospital (Dr. Chaim Shustik)

Toronto, Ontario:
Princess Margaret Hospital (Dr. Vishal Kukreti)

Winnipeg, Manitoba
Cancer Care Manitoba (Dr. Adebayo Olujohungbe)

Additional Canadian sites will be activated in the near future. Notification will be sent out once they begin recruiting patients.
